

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

This is to inform you that Takeda, in agreement with the U.S. Food and Drug Administration (FDA), has decided to conduct a market withdrawal for two product lots of 650 IU VONVENDI® [von Willebrand factor (recombinant)] in the U.S. with immediate effect. This withdrawal is being conducted out of an abundance of caution due to misprinted product labels with the incorrect expiration date. The impacted lots of VONVENDI are listed below.

Product	Item Code	Lot Number
VONVENDI	1504819	TVA22004AA
VONVENDI	1504819	TVA22004AB

There is no quality issue with VONVENDI. The safety and efficacy profile of VONVENDI remains consistent with the product Prescribing Information. The expiration date printed on the label on the outside of the VONVENDI package (June 27, 2025) is six months after the actual expiration date (January 27, 2025).
