

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Out of an abundance of caution, Leiters Health is recalling three Leiters Health ophthalmic products. Leiters Health has identified a manufacturing defect in glass vials supplied to us that we fill with ophthalmic solutions. We have no reason to believe there are any safety or quality issues with Leiters Health's products and we have not received any reports of adverse events associated with these products.
