

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

This is to notify you that Methapharm, Inc. is recalling the following product. The product is being recalled as this product was previously returned to Methapharm, Inc. due to an overage of quantities provided to the initial customers. As this product is classified as sterile, Methapharm's procedures do not allow return of sterile drug product into saleable inventory. The impacted product and lot numbers were inadvertently placed into saleable inventory, which does not comply with approved procedures.
