

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

This communication is to notify you that Zydus Pharmaceuticals (USA) Inc. ("Zydus"), is recalling Erythromycin Tablets USP, (multiple strengths and lots as per table below) at the retail level.

This recall has been initiated due to an observed OOS (Out of Specification) of Nitrosamine Drug Substance-Related Impurities (NDSRIs) in the drug product Erythromycin Tablets USP, (multiple strengths and lots as per table #1 below). The presence of these impurities at levels exceeding acceptable limits may pose a possible increased risk of cancer with long-term exposure.

The affected lots were shipped to our customers from Dec 2024 to Jan 2026, as further detailed in Table 1 below.
