

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

On April 7, 2026, West-Ward Columbus Inc., a Hikma Company, and its affiliates ("**Hikma**") announced a drug recall of one lot of **Alendronate Sodium Oral Solution, 70 mg/75 mL** to the wholesale level only. On May 8, 2026, the FDA requested we classify this recall as a class II; therefore, we are now expanding this recall to the **retail pharmacy level**. This recall is being conducted due to out of specification assay results in a limited number of bottles that were stored on side. A medical assessment has been completed and indicated that no drug safety issues would be expected. All other testing parameters for this lot are within specification.

This recall is limited to the one lot number listed below. Corrective actions are in place and **no other "West-Ward" or "Hikma"-labeled products or lots are impacted by this recall.** We have received no related complaints for the subject lot to date.
