

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Somerset is initiating this recall of **Haloperidol Decanoate Injection 50mg/mL** out of abundance of caution to prevent any risk. This recall has been initiated due to trace amount of water for injection (WFI) in a few vials of this oil-based product. To date, Somerset has not received any adverse event reports related to this event.

This recall is being made to the 'Retail Level' and affects the lot numbers listed on the table below.
