

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Rising Pharma Holdings, Inc is initiating a recall at the retail Level for Chlorthalidone Tablets USP 25 mg, Batch # RISB24002, 1000's count Bottle pack, and Chlorthalidone Tablets USP 25 mg, Batch # RISA24001, 100's count Bottle pack.

This recall is being initiated following an out of specification (OOS) result observed during 18 month long term stability testing of Chlorthalidone Tablets 25 mg.

At the 18 month interval, the Assay for Chlorthalidone (by HPLC) was found to be 91.5%, which is below the approved specification limit of 92.0% to 108.0%.

In addition, the mean dissolution result at the same stability interval was found to be 78% (range: 71%–84%), which does not meet the acceptance criterion of not less than Q = 80% of the labeled amount of chlorthalidone.

We have also conducted a health hazard assessment, and based on the preliminary assessment, no impact on patient health and safety is anticipated.

This product was shipped between December 2024 – September 2025.
