

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Baxter Healthcare Corporation is issuing an Urgent Drug Recall to the user level for one lot of Doxil 50 mg/25 mL (2 mg/mL) single-dose vials, as this lot was exposed to temperatures exceeding the labeled storage conditions during transportation. This product was inadvertently shipped to customers on August 10, 2023. There are no known adverse health consequences expected should the affected product have been used. The product efficacy is not affected by the temperature excursion. There have been no reports of any injury related to this issue.
