

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Glenmark Pharmaceutical, has initiated a market withdrawal of Mupirocin Ointment USP 2% (NDC 68462-180-20). Kesin Pharmaceuticals was notified of this Market Withdrawal on September 4, 2024, which affects repackaged products NDC 81033-020-50 and NDC 81033-020-99. This action is being taken in accordance with 21 CFR Part 7 and is classified as a market withdrawal due to the failure of a long-term stability assay at a 23-month time point in the bulk material provided by Glenmark Pharmaceuticals. This measure is out of an abundance of caution to ensure patient safety. No other batches, other than those listed, are affected by this withdrawal. Kesin Pharma Inc conducts its own real time and accelerated stability on all repackaged products, to date 81033-020-50 and 81033-020-99 have passed all stability time points.

The specific products affected by this withdrawal are listed below:
