The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Ritedose Pharmaceuticals has initiated a recall for Formoterol Fumarate Inhalation Solution, 20 mcg/2 mL. This recall has been initiated due to out of specification results obtained for a quality attribute during stability testing of the product.

Although the specification was exceeded, the level of the impurity is well below the threshold of toxicological concern established by ICH M7.

Therefore, use of this product does not present a potential health hazard.

We began shipping this product on June 10, 2025.
