

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Golden State Medical Supply Incorporated (GSMS, Inc.) has initiated a product recall of specific lots of Paroxetine HCl tablets listed below. This recall is being carried out at the retail level. Lot numbers identified were first shipped out on February 25, 2021. Apotex Inc. initiated a voluntary recall of eighteen (18) lots of Paroxetine Tablets, USP due to the specification limit of not more than 0.33% for Amadori Glucose adduct of Paroxetine (PR RCS) had been exceeded at the 36- month timepoint. Three (3) lots out of the eighteen (18) lots were shipped to GSMS. Apotex's Health Hazard Assessment indicates Paroxetine-monosaccharide adduct at 1.0% level in Paroxetine tablet would not result in unacceptable risk to the patient's health.
