The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

This is to inform you of a product recall for Metoprolol Tartrate Tablets USP 50mg.

Rubicon Research Limited is ANDA holder of this product; Advagen Pharma Limited is distributor of product and Axxelent Pharma Science Private Limited (FEI: 3026504936) is manufacturer of product.

This recall has been initiated due to observing an unidentified tablet (Advagen brand Carvedilol tablet) in filled bottle of Metoprolol Tartrate Tablets USP 50mg. A pharmacist observed this discrepancy while dispensing the tablet from 1000's count bottle.

Although both Carvedilol and Metoprolol are beta blockers, however consumption of Carvedilol Tablet instead of Metoprolol tablets may result in adverse reactions such as lowering blood pressure as Carvedilol tablet also blocks alpha-1 receptor.

Advagen (distributor of product) began shipping on September 2, 2026. Total 3,696 bottles of 1000's count was shipped to Advagen Pharma Limited from Axxelent Pharma Science Pvt. Ltd.
