

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

As a precautionary measure, Lupin Pharmaceuticals, Inc. is initiating a recall of lot QB00865 (Expiry: February 2028) of Sertraline Hydrochloride Tablets USP, 100 mg (90-count bottles) at the retail level. This recall is being conducted due to market complaints indicating a missing seal on the bottle.

There is no immediate risk /health hazard to patients as the evaluation of complaint samples confirmed that no bottles were dispensed to patients. However, in the worst-case scenario, missing seals could lead to spillage, moisture ingress, or contamination, compromising product integrity.

The recalled lot was distributed nationwide to wholesalers, distributors, and drug chains between July 2025 and September 2025.
