

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Product Name	Description	NDC	Batch/ Lot	Expiry Date
Anagrelide Capsule USP	1 mg 100 count	13668-462-01	BFD1G001	12/2021

Torrent Pharmaceuticals Limited is extending the recall of Anagrelide Capsule USP, 1mg from Retail Level to the Consumer level.

This recall is based upon dissolution test failure detected during routine quality testing of stability samples for this batch. Considering all available information, it is determined that the failed dissolution can result in a slower rate and extent of drug release leading to less anagrelide available in the body. For seriously ill patients with elevated platelet counts, less available anagrelide could increase the risk of clotting (blood coagulation) and clotting or bleeding events such as a heart attack or stroke, which could be life-threatening. To date, Torrent Pharmaceuticals Limited has not received any reports of adverse events related to this recall.
