

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Eugia US LLC (f/k/a AuroMedics Pharma LLC) has initiated a recall to the Retailer level / Hospital level for the drug product ‘Medroxyprogesterone Acetate Injectable Suspension, USP 150 mg/mL (1 mL Single dose vial)’, with lot # 1MP24069 from US market as an abundant of precaution due receipt of multiple market complaints claiming “Medication was extremely thick and viscous / defective vial i.e. product is not drawing into syringe / Medication not coming out of vial / Suspension not come out of needle”. Delayed or incomplete administration increases the risk of unintended pregnancy, particularly if the dosing schedule is not promptly corrected.

Medroxyprogesterone Acetate Injectable Suspension is indicated for use by females of reproductive potential to prevent pregnancy. Medroxyprogesterone Acetate Injectable Suspension, USP is a sterile, white to off white suspension and is supplied as 1ml single dose vial, must be stored upright at 20°C to 25°C (68° to 77°F).

Eugia US LLC began shipping this batch to customers nationwide on October 15, 2024.
