Subject: Product Recall - AuroMedics Pharma

AuroMedics Pharma LLC is recalling one lot of:

Levofloxacin in 5% Dextrose Injection
250mg/50mL in a Single-Use flexible container NDC 55150-243-46, Lot CLF160003, Expiry date May 2018.

This recall is being carried out to the pharmacy level. This recall is due to a confirmed customer report for the presence of visible particulate matter, tentatively identified as mold, within one flexible container. Administration of an injectable product that contains mold poses a serious health risk to the patient. To date, AuroMedics has not received reports of any adverse events or identifiable safety concerns attributed to the product consumed.

The lot was shipped to customers nationwide September 19 through October 31, 2017.

Please immediately check your inventory, quarantine, discontinue distribution of the affected product, and contact your wholesaler for directions.
