Subject: Recall notice - AvKARE

AvKARE is initiating a Class 3 Recall to the Retail Level. This recall has been initiated due to an "Out of Spec" finding of Related Compounds for the 200mg Tablets of Voriconazole. There is no indication that this product is a health hazard to the user. This product however may be less effective in this current unit dose package.

Please immediately check your inventory, quarantine, discontinue distribution of the affected product, and contact your wholesaler for directions.
