

The Board of Pharmacy has received notice of the following product recall:

Geritrex is recalling the following products

Ferrous Sulfate Elixir Lot 70601 (NDC: 53807-177-16 Exp: 6/19)

Diocetyl Liquid Lot 70604 (NDC: 53807-216-16 Exp: 6/19)

This recall is being carried out to the retail level. In response to a FDA 483 finding, dated 13 APR18, a recall was initiated on 07MAY18 for products manufactured between July and August of 2017 due to concerns of product microbial contamination. Recently the scope of that recall was challenged, and a decision was made to expand the time period to include all lots distributed in June 2017.

The Board of Pharmacy strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.
