Subject: Recall notice - SCA Pharmaceuticals

SCA Pharmaceuticals announced the recall of certain lots of sterile admixtures because of the potential for leakage. Due to a suspected supplier defect in one lot of 100mL Baxter 0.9% Sodium Chloride bags, SCA is initiating a recall. The one affected lot of Baxter bags, used by SCA pharmaceuticals in producing the products listed below, were observed with leaks at the seam. The leaks were confirmed during in-house inspection of finished product and raw material inspection at SCA. SCA is diligently working with the supplier to resolve the issue and identify the root cause.

Please immediately check your inventory, quarantine, discontinue distribution of the affected product, and contact your wholesaler for directions.
