Subject: Recall notice - Teva Pharmaceuticals USA, Inc.

Teva Pharmaceuticals USA, Inc. is recalling the lot below of Methylphenidate Hydrochloride Tablets USP, 20mg, 100 count bottles distributed under the Watson Laboratories, Inc. label. This recall is being carried out to the RETAIL LEVEL due to dissolution results for immediate release that were below specification (out-of-specification) at the routine 9 month stability time-point. The use of or exposure to the product is unlikely to cause adverse health consequences.

Please immediately check your inventory, quarantine, discontinue distribution of the affected product, and contact your wholesaler for directions.
