Facilities Receiving E-Mail Notification from Centralized Owner/Company Electronic Notice System

Pursuant to Business and Professions Code (B&P) section 4013, California law requires any facility licensed by the board to join the board's e-mail notification list within 60 days of obtaining a license or at the time of license renewal.

This form is only for those owners/companies complying with this law by subscribing a single e-mail address to the board's e-mail notification list, where the owner/company receives an electronic notification from the board, then immediately transmits electronic notice of the same notification to all of its licensed facilities (this is also authorized by B&P section 4013).

For ease with compliance you may complete the form below, or use a document of your own making with the following information, and submit it by e-mail as an attachment to: pharmacy.subscriberlist@dca.ca.gov

Owner/Company name:
Master e-mail address subscribed to board's notification list:

Name of person completing form:
Title:
E-Mail address:
