

LICENSING COMMITTEE REPORT

Debbie Veale, RPh, Chairperson

Lavanza Butler, RPh

Victor Law, RPh

Albert Wong, PharmD

Ricardo Sanchez, Public Member

LICENSING COMMITTEE REPORT

1. Status of Implementation of Recently Enacted Legislation Impacting Licensing Programs of the Board

a) Implementation of Assembly Bill 2605 (Bonilla, Chapter 507, Statutes of 2014) Regarding Licensing of Third-Party Logistics Providers.

Background

AB 2605 was board sponsored to ensure the appropriate and continued regulation over third party logistics providers. Specifically, the measure creates three new licensing categories for the board as well as establishes the requirements for application, licensure and renewal. The specific new licensing classifications include:

- Third-Party Logistics Providers
- Nonresident Third-Party Logistics Providers
- Designated Representative-3PL

Prior Board Discussion

During the January Board Meeting, members were advised that the freeze exemption was approved and board staff is working with the department to identify the necessary programming requirements. At that time the department estimated that programming changes would be completed by April 1, 2015, but committed to completing prior to that date if possible. In addition, draft applications and instructions were submitted for legal review in December.

Recent Update

Unfortunately because of delays in finalizing the business requirements, the programming necessary to fully implement this program has been delayed. We do not have a new estimated date from the department, but work continues. Most recently staff started testing in one of the legacy environments and is working with the department to identify changes.

Board staff posted the approved applications in early February on the board's website and sent out a subscriber alert advising that the applications were available. In addition, the most recent issue of the *Script* includes an article. More recently staff has developed a guidance document designed to highlight the steps licensees and applicants must take to secure compliance with the new law.

Board staff has developed temporary workaround solutions to issue licenses. The first licenses were issued in February, but we have not received the volume of applications we would have expected based upon the inquiries we are receiving.

Attachment 1 includes a copy of the guidance document.

b) SB 1159 (Lara) Professions and Vocations: License Applicants: Individual Tax Identification Number

Background

This legislation requires the board on or before January 1, 2016, to accept either a social security number or an individual tax identification number as a condition of licensure. Prior to this legislation, the board could only collect a social security number.

Recent Update

Board staff has undertaken revisions of several of the application forms and instructions. Further, as the pharmacy technician application is incorporated by reference in regulation, implementation of this update needs to occur via regulation. The formal rulemaking process was initiated on February 20, 2015 and runs through April 6, 2015. Absent any negative comments, the rulemaking will be brought back to the board at the April Board Meeting for final adoption. Board staff does not anticipate any challenges with meeting the January 1, 2016, legislative mandate. Staff anticipates that all other application forms will be completed by the end of April 2015.

In addition we are evaluating additional changes that may need to be made to facilitate full implementation for the pharmacist examination administration. This review should be completed no later than June 30, 2015, and an update provided during the July Board Meeting.

c) SB 1226 Veterans: Professional Licensing

Background

This measure requires the board, on or after July 1, 2016, to expedite the initial licensure process for an applicant who supplies satisfactory evidence to the board that the applicant has served as an active duty member of the Armed Forces and was honorably discharged. Implementation of this provision will require updating application and instruction forms.

Recent Update

This legislation takes effect on July 1, 2016, so implementation efforts are not yet underway. The DCA has advised all boards and bureaus within the department that no modifications will be made to legacy computer systems. As such any implementation efforts necessary will require manual workarounds by the board to implement.

d) SB 1466 (Omnibus) Business and Professions

Background

SB 1466 contained two provisions that impact board licensing programs. The first amends the definition of a correctional facility. Implementation of this provision will require updating application and instruction forms as well as securing changes to the existing licensing and application system. The board will need to secure a freeze exemption. Board staff will work with the department to secure the necessary changes.

SB 1466 also changed the requirements for an applicant designated representative to require that the individual be at least 18 years of age. This provision only requires a procedural update.

Recent Update

Board staff has initiated implementation efforts including creations of new application forms for the licensed correctional facility license category as well as revision of the designated representative application forms. Board staff is preparing the freeze exemption request as the first step to implementing the necessary changes in our legacy systems.

The changes to the designated representative application are currently under review and should be finalized in the next few weeks.

2. Department of Education Acceptance of Additional Tests for Fulfillment of General Educational Development Certificate Equivalency

Relevant Statutes

Business and Professions Code Section 4202 establishes the requirements for licensure as a pharmacy technician including the provision that an application be either a high school graduate or possess a general education development certificate equivalent.

Board staff was recently advised that the Department of Education has recently approved two additional exams that will satisfy our requirements. Below is a list of the three exams:

- GED – General Education Development Test
- HiSET – High School Equivalency Test
- TASC – Test Assessing Secondary Completion

Board staff is in the process of updating the instruction sheets to incorporate reference to these additional examinations.

3. Status of Board Sponsored Legislation to Change the Documentation Requires for Pharmacy Practice Experiences (SB 590, Stone)

Background

During its October 2014 Meeting, the board voted to pursue a legislative change to streamline the documentation required for pharmacist practice experience for students that graduate after January 1, 2016 from and ACPE school of pharmacy or a school of pharmacy recognized by the board.

Recent Update

Senator Jeff Stone is authoring this bill for the board. The provisions are contained in SB 590, which was introduced on February 26, 2015. Board staff received concerns from California Pharmacy Council (a group representing the California schools of pharmacy, associations and the board's executive officer) regarding some of the language contained in the bill. Based on discussions, staff has requested that clarifying language be amended into the bill to address the comments of the CPC.

Attachment 2 includes a draft version of the measure with the proposed amendments.

4. NAPLEX Exam Content Outline Updated

NABP recently completed its process to ensure its exam includes the most current standards for safe and effective pharmacy practice. As a result, the NAPB has released its new Competency Statements which will go into effect on November 1, 2015. This revised competency statement will be evaluated by the board's competency committee as part of its work to evaluate the board's current content outline for the CPJE.

Attachment 3 includes a copy of the revised competency statement.

5. Competency Committee Report

California Practice Standards and Jurisprudence Examination for Pharmacists (CPJE)

Effective February 26, 2015, the board instituted a quality assurance review of the California Practice Standards and Jurisprudence Examination for Pharmacists (CPJE). This means that there is currently a delay in the release of all CPJE examination scores. This process is done periodically to ensure the reliability of the examination. The board expects to release the scores in May 2015, however, will release exam scores more quickly if the review is completed.

Examination Development

The Competency Committee workgroups are meeting several times this year to continue examination development activities. In addition, the committee has completed its review of the revised NAPLEX content outline as a precursor to updating the CPJE content outline.

It is anticipated that a recommended revised content outline will be ready for board review and consideration during its October 2015 Board Meeting.

6. Review of Statistics Relating to Pharmacy Technician Application Denials

During the July 2014 Board Meeting, board members requested further discussion on the basis for denials of pharmacy technician applications. This issue was referred to the Licensing Committee. As this is the first committee meeting since that discussion, this will be the first opportunity to review this information.

In 2014, the board denied 45 pharmacy technician applications. Of those applicants, 73% qualified by completing a technician training program, 18% qualified through certification by the PTCB and 9% earned an associated degree in pharmacy technology.

The primary bases for denials include:

- Theft/Forgery, Identify Theft, Fraud
- Multiple DUIs and/or combinations with other violations
- Vandalism, Disorderly Conduct, Obstruction
- Drug Related (possession, under the influence, selling)

Attachment 4 includes additional categories of violations that resulted in application denials.

7. Common Deficiencies for Pharmacy Technician Applications

The board has processed 4,449 pharmacy technician that were received since July 1, 2014. Of those processed 2,392 (54%) were deficient upon initial review. Over the years the board has tried various approaches to reduce the deficiency rate, including updating the application form and instructions to provide more specificity. Regrettably, with these efforts, the deficiency rate is still very high.

The most common deficiencies include the following:

- Application not completed in its entirety, including missing signatures and dates, former names, etc.
- Training program affidavit (used to confirm completion of the training program) being completed before the applicant completes the training program or not being completed in its entirety.
- Livescan submission, high school diploma and self-query report provided under different names. (Including the AKA on the application would resolve many of these.)

Board staff will be developing a fact sheet that will be included as part of the application materials to assist with educating applicants.

8. Common Deficiencies for Pharmacy Applications

As the board has discussed recently, the processing times for pharmacy applications is beyond the desired processing time of less than 60 days. Applications are currently processed within about 75 days of receipt. While staff is working diligently to reduce this processing time, we have also identified that a large percentage of the applications we receive are deficient upon initial submission which results in further delays in issuing the license. Below is a list of common deficiencies:

1. A copy of the approved wholesale credit application is not provided. Many applicants provide a copy of the approval letter, which is not the same thing.
2. The lease is missing information, term of the lease, etc.
3. A Fictitious Name Statement is not provided when the pharmacy is using a "doing business as."
4. Forms are not complete in their entirety.

9. Licensing Statistics

Licensing Statistics for July 1, 2014 – February 28, 2015

As of February 28, 2015, the board had 141,998 total licensees, including 45,255 pharmacists and 74,409 pharmacy technicians and 7,334 pharmacies, hospitals and exempt hospitals.

During the first eight months of the fiscal year, the board has issued 10,559 licenses including:

- 1,586 pharmacist licenses
- 1,963 intern licenses
- 5,452 pharmacy technician licenses
- 1,151 pharmacy licenses

Attachment 5 includes these licensing statistics. Additional statistics will be provided at the meeting.

10. Future Committee Meeting Dates for 2015

A list of committee meeting dates for the remainder of 2015 will be provided at the meeting.

Attachment 1

Guidance for Third-Party Logistics Providers Currently Licensed as Drug Wholesalers

California law now requires entities performing the duties of third-party logistic providers (3PL) to be specifically licensed as either third-party logistics providers or nonresident third-party logistic providers if they are shipping dangerous drugs or dangerous devices into, within or from California. Formerly such businesses were licensed with the California State Board of Pharmacy as drug wholesalers or nonresident drug wholesalers.

The board urges all third-party logistics providers currently licensed as wholesalers to immediately submit applications to become licensed as third-party logistic providers, or if located outside California as non-resident logistics providers. The following information is intended to streamline the application process for firms making this conversion.

California law does permit wholesalers and third-party logistics providers to be licensed in the same facility. However, each entity is required to have its own license, separate records and drug stock and different specially trained and licensed personnel (the responsible manager for the 3PL, and a designated representative-in-charge for the wholesaler; designated representatives 3PL for the 3PL and designated representatives for the wholesaler).

The board is unable to apply a previously paid wholesaler renewal fee or designated representative renewal fee to licensure as a 3PL or designated representative- 3PL. However, the following information will streamline some of the application processes and use data already on file with the board if the entity is currently licensed as a wholesaler or nonresident wholesaler and planning to become licensed only as a 3PL.

For licensure as a third-party logistics provider (the site license):

Go to www.pharmacy.ca.gov and click on

On application

- Complete the application form and business background affidavit
- If fingerprints are already on file for the owners and officers for a currently licensed wholesaler or nonresident wholesaler, new fingerprints need not be submitted. However, any new owners or officers will need to submit fingerprints and personal affidavits.
- The bond currently issued to the company as a wholesaler will be used as the required bond for the 3PL license unless there the bond lists “wholesaler” in the title. If so, a new bond will be required. Note however that the bonding requirement for a 3PL is \$90,000 instead of \$100,000, unless the company’s gross sales last year were \$10 million or less, in which case a \$25,000 bond is required.

- If the facility is located in another state (non-resident) and is already licensed with the board, it need only provide license verification from the home state, not every state where the facility holds a license.

On application 17A-84 for the designated representative–3PL

- All currently licensed CA-licensed designated representatives will need to become licensed as designated representatives 3PLs if they will work in a third-party logistics provider premises. There is a separate license for this. However, because the qualification criteria for a designated representative-3PL is slightly less than the requirements for licensure as a designated representative-3PL, the board believes the process will be straight forward for those who are currently licensed as designated representatives.
- For individuals currently licensed as a designated representative, the board will require submission of:
 - The application form for a designated representative-3PL (form: 17A-84)
 - A new set of fingerprints showing “designated representative-3PL” indicated on the application. (obtain from the board’s website California Department of Justice requirements do not allow the board to use the same fingerprints to serve for two licenses, or to switch from one type to another.)
 - Appropriate fees for the fingerprints and application.

The board will issue each designated representative-3PL license for one year.

- A responsible manager must be associated with each 3PL premises location licensed. A responsible manager must hold a designated representative- 3PL license and be designated as the responsible manager on site application form (17A-86 or 17A-85)

Attachment 2

SECTION 1.

Section 4209 of the Business and Professions Code is amended to read:

4209.

(a) (1) An intern pharmacist shall complete 1,500 hours of pharmacy practice *experience* before applying for the pharmacist licensure examination.

(2) This pharmacy practice *experience* shall comply with the Standards of Curriculum established by the Accreditation Council for Pharmacy Education (*ACPE*) or with regulations adopted by the board.

(3) This pharmacy practice experience shall include 900 hours of pharmacy practice experience in a pharmacy as a pharmacist and shall include pharmacy practice experience in both a community and institutional pharmacy practice setting.

(b) An intern pharmacist shall submit proof of his or her *pharmacy practice* experience on board-approved affidavits, or another form specified by the board, which shall be certified under penalty of perjury by a pharmacist under whose supervision ~~such the~~ experience was obtained or by the pharmacist-in-charge at the pharmacy while the pharmacist intern obtained the experience. ~~Intern hours~~ *Pharmacy practice experience* earned in another state may be certified by the licensing agency of that state to document proof of those hours.

(c) An applicant for the examination who has been licensed as a pharmacist in any state for at least one year, as certified by the licensing agency of that state, may submit this certification to satisfy the required 1,500 hours of ~~intern~~ *pharmacy practice* experience, provided that the applicant has obtained a minimum of 900 hours of pharmacy practice experience in a pharmacy as a ~~pharmacist.~~ *pharmacist and has pharmacy practice experience in both a community and institutional pharmacy practice setting.* Certification of an applicant's licensure in another state shall be submitted in writing and signed, under oath, by a duly authorized official of the state in which the license is held.

(d) An applicant for the examination who has graduated after January 1, 2016, from an ACPE-approved accredited college of pharmacy or department school of pharmacy of a university recognized by the board shall be deemed to have satisfied the ~~1,500 hours of pharmacy practice experience~~ pharmacy practice experience requirements specified in subdivisions (a) and (b).

SEC. 2.

No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Attachment 3

Revised Competency Statements

AREA 1 – Ensure Safe and Effective Pharmacotherapy and Health Outcomes

1.1.0 Obtain, Interpret, Assess, and/or Evaluate:

- 1.1.1 Information from patient interviews
- 1.1.2 Patient medical records
- 1.1.3 Results from instruments and screening strategies used to assess patients
- 1.1.4 Laboratory and diagnostic findings
- 1.1.5 Signs and symptoms associated with diseases and medical conditions
- 1.1.6 Patients' need for medical referral
- 1.1.7 Risk factors relevant to the prevention of a disease or medical condition and the maintenance of wellness
- 1.1.8 Information from interdisciplinary health care providers

1.2.0 Develop and Implement Individualized Treatment Plans, Taking Into Consideration:

- 1.2.1 Specific uses and indications and dosing for drugs
- 1.2.2 Purported uses and indications for dietary supplements and complementary and alternative medicine
- 1.2.3 Lifestyle and self-care therapy
- 1.2.4 Pharmacologic classes and characteristics of drugs
- 1.2.5 Actions and mechanisms of actions of drugs
- 1.2.6 The presence of pharmacotherapeutic duplications and/or omissions
- 1.2.7 Drug interactions
- 1.2.8 Contraindications, warnings, and precautions
- 1.2.9 Allergies
- 1.2.10 Adverse effects and drug-induced illness
- 1.2.11 Pharmacodynamic, pharmacokinetic, and pharmacogenomic principles
- 1.2.12 Pharmacokinetic data to determine equivalence among drug products
- 1.2.13 Pharmacoeconomic factors
- 1.2.14 Routes and methods of administration, dosage forms, and delivery systems

1.3.0 Assess and Modify Individualized Treatment Plans, Considering:

- 1.3.1 Therapeutic goals and outcomes
- 1.3.2 Safety of therapy
- 1.3.3 Efficacy of therapy
- 1.3.4 Medication non-adherence or misuse

1.4.0 Techniques for Effective Communication/Documentation of the Development, Implementation, and Assessment of Individualized Treatment Plans to:

- 1.4.1 Patients and/or patients' agents
- 1.4.2 Interdisciplinary health care providers

1.5.0 Advocate Individual and Population-Based Health and Safety, Considering:

- 1.5.1 Best practices, scientific literature evaluation, and health-related resources
- 1.5.2 Quality improvement strategies in medication-use systems
- 1.5.3 Processes, evaluation of, and responses regarding medication errors
- 1.5.4 Role of automated systems and technology in medication distribution processes
- 1.5.5 Emergency preparedness protocols

AREA 2 – Safe and Accurate Preparation, Compounding, Dispensing, and Administration of Medications and Provision of Health Care Products

2.1.0 Employ Various Techniques to Calculate:

- **2.1.1** Patients' nutritional needs and the content of nutrient sources
- **2.1.2** Drug concentrations, ratio strengths, and/or extent of ionization
- **2.1.3** Quantities of medication to be compounded, dispensed, or administered
- **2.1.4** Quantities of ingredients needed to compound preparations
- **2.1.5** Rates of administration

2.2.0 Compound Sterile and Nonsterile Products, Considering:

- **2.2.1** Techniques, procedures, and equipment for drug preparation, compounding, and administration of sterile products
- **2.2.2** Techniques, procedures, and equipment for drug preparation, compounding, and administration of nonsterile products
- **2.2.3** Physicochemical properties of active and inactive ingredients
- **2.2.4** Identifying the presence of, and the cause of, product incompatibilities or degradation and methods for achieving stability
- **2.2.5** Physicochemical properties of drugs that affect solubility and stability

2.3.0 Review, Dispense, and Administer Drugs and Drug Products, Considering:

- **2.3.1** Packaging, labeling, storage, handling, and disposal of medications
- **2.3.2** Commercial availability, identification, and ingredients of prescription and non-prescription drugs
- **2.3.3** Physical attributes of drug products
- **2.3.4** Specific instructions and techniques for administration

Attachment 4

Pharmacy Technician Denial Trend Report
January 1, 2014 - December 31, 2014

Total Denied: 45

Theft//Forgery, Identity Theft, Fraud, Etc.: <i>including combo with other violations</i>	DUI: Multiple DUI's and/or Combo with other violations	Drug Related: <i>Possession, Influence, Sell, Etc...including combo with other violations</i>	Other Offenses: Vandalism, Disorderly Conduct, Obstruction, Etc.: <i>including combo with other violations</i>	Battery, Assault, Spouse Abuse, Child Cruelty, Etc.: <i>including combo with other violations</i>	Diversion from Pharmacy (Previous Board Investigation or while working as clerk)	Out of State Board Discipline
20 (44%)*	17 (38%)*	13 (29%)*	12 (33%)*	8 (18%)*	4*	1*

*The percentage in each column is determined by the number of applications with the particular offense, divided by the total number of applications denied.
An application may be counted in multiple columns to accurately reflect the appropriate offenses. For example, if an applicant had DUI, theft, and battery offenses, the application would be counted in the DUI, theft, and battery columns for the purpose of categorizing the offenses.
